

## **Leading with Agility: The Official PMI® Disciplined Agile Scrum Master (DASM®) Course**

### **Aiming to Command Agile with Mastery?**

Navigate the realms of Disciplined Agile with PMI's official DASM® certification. As an Authorized Training Partner of PMI®, we offer you a course steeped in excellence, sculpted to transform you into an Agile champion, proficient in leading diverse teams and projects with agility and precision.

### **Unlocking Disciplined Agile Superiority:**

Our DASM® course isn't just training; it's a holistic immersion into the world of disciplined agility. Through this course, you'll gain insights into Agile principles, tools, and best practices, positioning you at the forefront of modern project management methodologies.

### **Key Learning Objectives:**

1. **Agile & Scrum Foundations:** Immerse yourself in the core concepts, practices, and intricacies of Agile and Scrum methodologies.
2. **Leading Agile Teams:** Develop leadership skills tailored for Agile environments, fostering team collaboration, and delivering value.
3. **Adaptive Planning:** Master the art of flexible and responsive planning, ensuring project goals align with dynamic business needs.
4. **Continuous Improvement:** Champion a culture of iterative refinement and evolution, driving project and team success.
5. **Stakeholder Collaboration:** Strategize for enhanced stakeholder engagement and communication in an Agile setting.

### **Official PMI® DASM® Excellence:**

Harness the power of disciplined agility to drive project outcomes, foster team growth, and adapt seamlessly to ever-evolving business landscapes.

### **Target Audience:**

Project managers, Agile practitioners, Scrum masters, and visionary professionals eager to level up their Agile expertise with an official PMI® certification.

### **Your Agile Mentor in Excellence:**
